ST NET-APPTIS FIRSTSOURCE JV

www.firstsourcejv.com

The FirstSource program is intended to help the Department of Homeland Security aggregate its buying power. It provides commercial IT commodity solutions; standardized equipment consistent with the Enterprise Architecture initiative, and systems that enhance mission effectiveness and create economies of scale through consolidation of requirements and the buying-power of the Department as a whole.

The ST Net-Aptis FirstSource Joint Venture, SAF-T, offers custom-built computers, servers, peripherals, software, storage, wireless, security, networking products, and virtually anything else in providing best-of-breed solutions. Through established relationships with leading vendors, we provide clients with reliable, cost-effective technology and the highest quality products and services in the industry. Our broad range of experience and technical expertise, along with industry certifications, provides the highest level of support.

About SAF-T – A ST Net-Apptis Joint Venture

SAF-T is made up of ST Net and Apptis. ST Net is a woman-owned 8(a) SBA-approved protégé firm that has a long history of successfully working with Apptis as a subcontractor on a variety of federal programs. Apptis is a leading supplier of IT commodity products to federal clients worldwide, and ST Net's mentor firm.

The ST Net-Apptis FirstSource Joint Venture Team was founded to effectively serve DHS as a small business partner through the FirstSource procurement vehicle. The joint venture has been approved under the SBA 8(a) Mentor-Protégé program, and entitles clients to take the full small business credit.
